FEATURED PROJECTS

Food Delivery Performance Analytics | Power BI | Power Query | DAX

- Analyzed 42K+ delivery orders, cleaned data, and built a 5-page interactive dashboard to identify delivery-time trends across traffic, weather, festivals, vehicles, partners, and city types.

Global Superstore Sales Analytics | Power BI | Power Query | DAX

- Cleaned and analyzed 25K+ orders representing \$9.48M in sales and \$1.09M in profit, and built an interactive dashboard covering profitability, regional performance, monthly trends, and key KPIs.

E-Commerce Customer & Sales Analytics | MySQL | Python | Tableau

- Examined e-commerce sales and customer data using SQL and Python and built a Tableau dashboard to explore revenue, customer behavior, product performance, segments, and regional trends.
